

I am writing to comment on the importance of having the K-Love transmitter station in my community. K-love provides an important service to me and my community by providing positive, encouraging, and family friendly broadcasting in my community and in other communities across the country. If this station is displaced by an LPFM station it may decrease the number of options for family friendly broadcasting in my community. I believe that K-Love radio operates in the public interest by providing positive, family friendly broadcasting in my community in a time when many other options lack this extremely important family friendly atmosphere.

Thank you.
